Dear Sir /Madam

Ricoh USA Inc. launches Intelligent Locker Solution

With reference to the ASX announcement dated 11 December 2015, TZ Limited (“TZ” and the “Company”) is pleased to announce that Ricoh USA, Inc. has officially launched its Intelligent Locker Solution to the North American and Latin American markets. The offering leverages TZ’s Smart Device Technology and Software to deliver solutions for both modern office environments transitioning to a hoteling model and mail centres that handle high package volumes, such as those in institutions of higher education. “Doing more with less” is a key tenet of the new world of work, and Intelligent Locker Solutions are a great example of how efficiency and flexibility can drive employee engagement and productivity.

“As technology continues to reshape the way we work, it’s up to strategically minded organisations to constantly reassess not only how they do business, but also the space they do it in,” said John Brophy, Vice President, Product Marketing, Ricoh USA, Inc. “Our Intelligent Locker Solution grants flexibility to spaces that sorely need it as they are adapted to the new world of work. Whether accommodating hoteling employees or serving increased demand for packages, this solution will help organisations streamline both their operations and the way they use their space.”

Ricoh is a global technology company that has been transforming the way people work for more than 80 years. Under its corporate tagline – imagine. change. – Ricoh continues to empower companies and individuals with services and technologies that inspire innovation, enhance sustainability and boost business growth. These include document management systems, IT services, production print solutions, digital cameras, and industrial systems.

Headquartered in Tokyo, Ricoh Group operates in over 190 countries. In the financial year ending March 2015, Ricoh Group had worldwide sales of 2,231 billion yen (approx. 18.5 billion USD).

TZ has already successfully secured sales with Ricoh since TZ’s announcement in December last year, and TZ’s Board is confident that sales traction will be substantially increased by this national launch.

Kenneth Ting, Executive Director of TZ Limited stated, “The relationship with Ricoh USA, Inc. has taken time to nurture and great lengths have been taken to ensure that the support conditions are in place to enable the full breadth and depth of Ricoh’s Managed Service and Business Development resources to proactively promote TZ Locker Solutions to the US Corporate and Educational sectors. After months of planning and training, we are extremely pleased to see the official launch of the Intelligent Locker Solution to Ricoh’s extensive network of customers and expansive national base of sales representatives.”
